UNITED STATES STEAMER SUNK

German Submarine Shells Vessel After Discharging Deadly Torpedo.

TWENTY MEN SURVIVE

Scores of American Sailors and Soldiers Are Killed by Shrapnel and the Lifeboats Are All Demolished.

An Atlantic Port, Oct. 11.—According to the story told by 20 survivors of the American steamer Ticonderoga, torpedoed by a German submarine 1,700 miles off the Atlantic coast, scores of American soldiers and sailors were killed or wounded by shrapnel fired by the submarine. A British freighter picked up the 20 survivors. There were 250 men aboard the Ticonderoga, an American steamship of 5,130 tons, and all but the 20 who arrived here are believed to have perished. The survivors got away in the only boat which was not demolished by the shell fire from the submarine, they said. Seventeen of the men who reached port were members of a detachment of soldiers detailed to care for horses which were being transported.

Ship Fell Behind Convoy. The Ticonderoga was attacked, presumably on Oct. 2, when she fell behind her convoy because of engine trouble.

According to the survivors' story, the submarine was not sighted until she had sent a torpedo crashing into the side of the ship. The torpedo did not strike a vital spot, however, and the captain crowded on full steam in effort to escape, at the same time ordering the gun crews into action against the submarine, which appeared about a mile off.

"Our gun crews did not fire more than five or six shots," one of the survivors said. "The forward gun was shot away almost at once. The after gun and its crew was done for almost as quickly. Then the men went to the boats, but it was no use, as the flying shrapnel was spraying the decks and the men fell in scores, either killed or badly wounded."

Seven of Ship's Boats Riddled. Another survivor declared that all of the Ticonderoga's eight boats with the exception of one were riddled with shrapnel before they could be launched. A number of men who tried to get into the eighth boat were killed by shrapnel as they clambered over

SELIH GOURDJI
Turkish Journalist Who Is Refugee in This Country.

Because he refused to sell his ideals to the German government, Selih Gourdji, former president of the Ottoman official news agency, is a refugee in this country. This journalist fled from Turkey late in 1914, but the authorities refused to permit his wife and two children to follow him. They are now in France.

the side of the vessel, he said.

Japanese Steamer Sunk. A British Port, Oct. 11.—The Japanese steamship Hiranomaru of 7,335 tons gross has been torpedoed and sunk. It is feared that 300 lives were lost.

The Hiranomaru was outward bound for Japan and carried about 200 passengers. The vessel was torpedoed and sunk by a German submarine when about 300 miles south of Ireland.

London, Oct. 11.—The Dublin mail boat Leinster has been torpedoed, according to the Exchange Telegraph company. The steamer was making a trip from Dublin to Holyhead.

Four hundred persons perished in the torpedoing of the Leinster, according to a report, which has not yet been confirmed.

Washington, Oct. 11.—Six officers and 17 enlisted men of the crew of the cargo steamer Herman Frasch, sunk in collision with the steamer George C. Henry, Oct. 4, were officially reported missing by the Navy department.

"NO TIME TO ACT ON IDEA THAT THE WAR IS OVER," SAYS MARCH

AUTHORS WILL SUFFER

Instigators of German Atrocities Must Be Punished.

Secretary Lansing Says President Wilson Has Clearly Stated Peace Principles.

Auburn, N. Y., Oct. 11.—"If another world war is to be prevented, strict justice and the common good must be the underlying motives of those who are charged with the responsibility of drafting the peace treaty after Prussian militarism is crushed," Secretary of State Lansing said in an address here. He was speaking at the celebration of the 100th anniversary of the founding of Auburn Theological seminary.

While stern justice must be tempered with mercy, Mr. Lansing said, when the time comes to balance the account the authors of the "frightful wrongs committed against mankind should not be forgotten."

Justice Must Discriminate. He urged, however, that the American people discriminate between the ignorant and the intelligent, between the responsible and the irresponsible, between the master and the serf.

"The principles on which a general peace will be made between the warring nations," said Mr. Lansing, "have been clearly stated by President Wilson. These principles of justice must guide those charged with the negotiation of the great treaty of peace and must find expression in that momentous document which will lay the foundation for a world transformed."

42 Divisions Had First Line in St. Mihiel Battle

(By United Press)
Washington, Oct. 11.—General March announced the 42nd division had the first line center in the recent St. Mihiel attack when the Americans closed the pocket.

(By United Press)
Stockholm, Oct. 11.—Prince Frederick Charles of Hesse, has been elected king of Finland by the Finnish Landtag, according to dispatches.

PUBLIC IS PANIC STRICKEN

German People Unloading Their Bonds at Any Price.

Basel, Switzerland, Oct. 11.—There are persistent rumors among the working classes in Germany, according to advices received here, that Germany's imperial bonds may become valueless.

The rumors have their basis in the repeated Allied victories. The people of numerous towns are said to be unloading their war loans at extraordinary low prices and a panic seems imminent.

RETAINS DAYLIGHT SAVING

Senate Passes Bill Favored by War Industries Board.

Washington, Oct. 11.—The daylight saving law would remain in effect until rescinded by Congress under a bill passed by the senate. The measure, which was endorsed by Chairman Baruch of the war industries board, in the interest of fuel economy, now goes to the House. Under the present law the clocks would be turned back on hour on Oct. 27.

PEOPLE CLAMOR FOR PEACE

Certain German Groups Take Advantage of Defeats.

Washington, Oct. 11.—Defeatist groups are beginning to operate openly in Berlin and throughout Germany, diplomatic advices here indicated.

The groups are declared to be making full use of the disadvantageous military situation to further disrupt the German morale and bring immediate peace.

Nearly 2,000,000 Men in France

(By United Press)

Washington, Oct. 11.—The Americans have now reached nearly two million men in troop shipments General March announced. "This is no time to act on the idea that the war is over," General March said. "The thing to do is to back the government with men and money until victory is certain."

Important Gains Made in Champagne

(By United Press)

Paris, Oct. 11.—French troops maintained contact with the retreating Germans on many fronts throughout last night, says the French official statement. Important gains were made in the Champagne region and in the Chemin des Dames. The French lines were carried to within three miles of Vouziers in the former district and to within four miles of Craonne in the latter. Craonne is now practically encircled. The French have occupied Semide together with several other villages west of the Argonne.

Germany Will Evacuate Belgium Providing She Can Keep Her Loot

(By United Press)

London, Oct. 11.—Germany's reply to President Wilson will be that she will evacuate Belgium and France providing negotiations start in a neutral country before the evacuation is completed and providing the allies give assurances that German territory including Alsace and Lorraine and Polish Prussia not be demanded. During the peace negotiations German troops to remain in Russia and Roumania according to an Amsterdam dispatch to the express.

(By United Press)

Amsterdam, Oct. 11.—The kaiser has summoned to Berlin the three sovereigns of German federal states for the crown council to be held tomorrow before dispatching Germany's reply to America's note according to a Cologne dispatch.

Germans Retreating Madly Everywhere

(By United Press)

Paris, Oct. 11.—The Germans are retreating precipitately northeastward from Cambrai in the general direction of Dinain and Valenciennes. East of Cambrai the allies are beyond Solesmes and Le Cateau. East of St. Quentin the French have reached the Oise at Hauteville and are nearing Grand Valley and the Guise region. The enemy has set fire to Vouziers. Farther east between the Argonne and the Meuse the Franco-American advance continues.

Germans Evacuating Chemin Des Dames

(By United Press)

London, Oct. 11.—Allied patrols have entered Grandpre battle front dispatches say, the enemy holding the heights to the northward. The Germans are reported evacuating the Chemin des Dames region.

Turkey Shows Desire to Retire From War.

New Grand Vizier Has Representatives in Touch With Governments of Entente Powers.

Washington, Oct. 11.—It is learned from an authoritative source that representatives of the new Turkish government are negotiating with the Allies upon the terms on which they may withdraw from the war.

The new grand vizier, Tewfik Pasha, pro-Ally, has representatives now in touch with the Allied governments, it is said.

Autonomy for Austria.

London, Oct. 11.—It is reported from Vienna that the Austro-Hungarian ministerial council has decided to introduce national autonomy "in order to make President Wilson's stipulation an accomplished fact," says an Exchange Telegraph dispatch from Copenhagen today.

A movement favoring a proclamation separating Hungary and Austria is making extremely rapid progress among the public in the dual monarchy, according to an Exchange Telegraph dispatch from Zurich.

Women, Nurses and Children Sunk on Torpedoed Boat

(By United Press)

An English Port, Oct. 11.—Nearly three hundred are missing following the torpedoing of the Japanese steamship Hiranomaru. Twenty-nine were saved by an American destroyer which then turned firing on the submarine. The U-boat fled. Women, nurses and children were among the killed.

Americans Take 4,000 Prisoners

BY FRANK J. TAYLOR

(United Press Staff Correspondent.)

With American First Army, Oct. 11.—Americans and French are seizing the last portions of the Kremling line on a wide front from the Meuse to west of the Argonne forest. Additional advances of three miles at some points have closed the western entrance to Grand Prepass and given them practically control of the eastern entrance. Great difficulty was encountered about Lebesogne and Gournay but when these villages fell we swept forward over the Marq and Cheverries to the southern outskirts of St. Juven. In the past two days the Americans have taken more than four thousand prisoners on the Argonne-Meuse front. American anti-aircraft batteries have shot down thirty-two German planes in the St. Mihiel-Argonne battles.

THREAT FRIGHTENS FOE

Occupation of Enemy Towns of Metz, Strassburg, Mainz, Trent, Trieste and Pola Proposed as Condition for Armistice.

London, Oct. 11.—A telegram from the semi-official Wolff bureau, saying that Donal was burning, "as the result of the continuous British bombardment," affords indications that Germany is becoming anxious in consequence of the threats of reprisals for destruction of towns in France.

The reports that the Germans had set fire to a town they were still occupying was characterized by the agency as ridiculous.

The Germans, according to a Reuter dispatch from Stockholm, also deny having fired Roulers, Thourout and Lichtervelde.

The demand for something more than unconditional surrender from Germany is becoming intensified in the newspapers here. Letters recalling the crimes of Germany and urging retribution include one from Prof. Spenser Wilkinson, who declares that a condition precedent for the cessation of hostilities should be the occupation by the Allies of Metz, Strassburg, Mainz, Trent, Trieste and Pola.

Viscount Middleton, former secretary for India, asks that the Allies make a declaration that peace shall not be made until retribution is exacted from German towns for vandalism in France. The Times describes the enemy's policy of burning and destroying towns as he retreats as a "cruel and mean blackmail," and says that German towns like Hamburg and Frankfurt must be marked for ransom in return for French and Belgian towns wantonly destroyed.

America the Old World.
It has been observed that, although
this continent is the new world in
relation to its discovery, it is an old
world, much older than Europe, in
relation to the types of its animals
and plants. For example, the big trees
of California are of older stock than
any trees now growing in Europe. The
question has been raised whether
some of the races of Siberia and eastern
Asia have not sprung from Amer-
ican aborigines, rather than that our
Indians have come from that quar-
ter.

Favors League of Republics.
Santiago, Chile, Oct. 11. — Boltran
Mathieu, the new Chilean ambassador
to Washington, in a statement regard-
ing the relations of the South Amer-
ican republic with the United States,
declared that all the republics should
have worked together from the begin-
ning of the war, as such a group would
have been a moral force demanding
consideration from the first. "Today,"
he added, "the only thing that re-
mains is to sympathize heartily with
the attitude of the United States,
which cannot but benefit us."

Seamen Respond to Call.

faring men to volunteer for service in
the merchant marine service has met
with so prompt and enthusiastic ap-
pel that the shipping board has received
more applications than it can handle.
Many former captains, on reading the
President's appeal, left their work and
came to Washington, with the impres-
sion they would be sent to sea im-
mediately. It was found, however,
that captains were coming forward
faster than ships were being built.

BETTER THAN CALOMEL

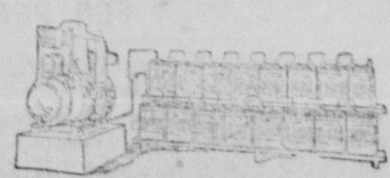

Thousands Have Discovered Dr.
Edwards' Olive Tablets are
a Harmless Substitute

Dr. Edwards' Olive Tablets—the sub-
stitute for calomel—are a mild but sure
laxative, and their effect on the liver is
almost instantaneous. They are the re-
sult of Dr. Edwards' determination not
to treat liver and bowel complaints with
calomel. His efforts to banish it brought
out these little olive-colored tablets.

These pleasant little tablets do the
good that calomel does, but have no bad
after effects. They don't injure the
teeth like strong liquids or calomel.
They take hold of the trouble and
quickly correct it. Why cure the liver
at the expense of the teeth? Calomel
sometimes plays havoc with the gums.

FARMERS ATTENTION!

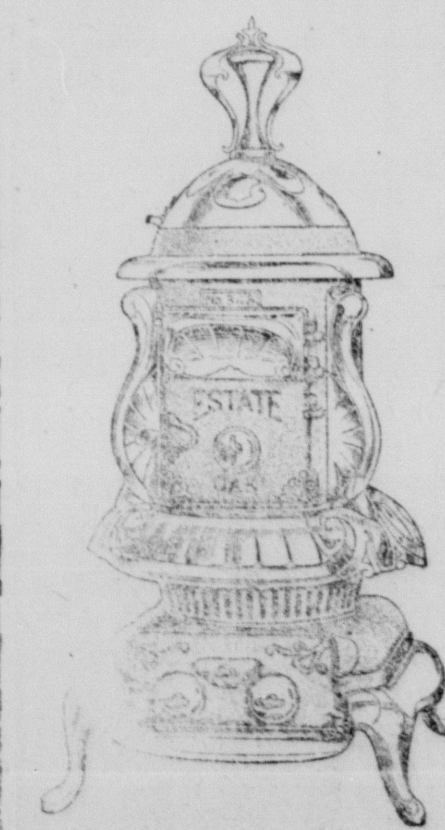

Are you taking the proper care of your farm buildings? It is
the patriotic duty of every citizen to conserve his property because
it represents a part of our country's resources, but the farmer's duty
is double because he must take care of the crops that mean so
much toward the winning of the war.

Don't some of your buildings need immediate repairs to prop-

INTERESTING MEETING

Held by Swedish Bethany Church—
The Building Committee
Makes Report

The congregation of the Swedish Bethany church held a very interesting business meeting Monday evening, which was well attended. The report of the building committee for new parsonage was read and showed that the building was complete with the exception of the stucco work on the outside walls. The parsonage is modern in every respect and careful attention has been given to the smallest detail. Peter Benson, a member of the church had supervision over the work and is to be commended on the way all details were attended to. Rev. Theodore Clemens, former pastor, had charge of the soliciting of funds and he was given a vote of thanks for his splendid efforts. There is a balance due yet to be raised but the outlook for taking care of this is good and the members will put forth every effort to clear the balance. The congregation instructed the secretary to thank all who had already donated toward the parsonage, in either labor, material or funds.

Evangelist G. E. Johnson will hold a series of meetings in the church, commencing October 17 and continuing until October 28th. He is the traveling evangelist for this district

and is a forceful speaker and an invitation is extended to all to hear him. The annual report of the Swedish Mission Covenant showed that in proportion to membership there is no other denomination which has as many active workers in different army and navy training camps as the Mission Covenant, which now has active workers in over 15 camps.

A new service flag will soon be dedicated in the church, as the old one was not large enough for all the stars. The congregation is at present without a minister but hope to have one here before Christmas.

CITY OF LENS DESTROYED

Germans Blow Up Buildings and Flood Coal Mines.

Paris, Oct. 11.—A startling picture of destruction is drawn by official "Eyewitness," who has visited the neighborhood of Lens since the Germans withdrew from that city. Railways and tramways are torn up and are converted into huge piles of twisted rails. Mayor Basly of Lens says that the city has been virtually leveled. The Germans blew up entire sections of the town to establish their trench systems. The population of 35,000 people is entirely gone and the city is dead. Water fills the galleries of the coal mines, which used to turn out 3,000,000 tons of coal a year.

GERMAN REPLY IS FRAMED

Military and Civil Officials Confer on Note to Wilson.

Copenhagen, Oct. 11.—The German reply to President Wilson's note was drafted after a conference of Prince Maximilian, the Imperial German chancellor; Vice Chancellor von Payer, the ministers and military representatives of the government.

This information is contained in a dispatch here from Berlin.

YARN FOR SWEATERS

Same May be Secured at Rest Room—Busy Knitters Wanted to Help Fill the Quota

Willing, busy fingers are wanted by the Brainerd Chapter, American Red Cross at once, to knit sweaters to apply on the allotment of 450 required by the Northern Division and to be completed before the last of this month.

The yarn has arrived and those willing to knit can secure this by calling at the rest room in the city hall, where Mrs. J. P. Anderson, in charge of this department, or her assistants will issue yarn allotments. The time is short in which to complete this quota, winter is coming on and the boys across the sea will need sweaters. Patriotic women are urged to do their bit and aid in this important work at once.

At the Best Tomorrow

There are three real reel comedians in "Sleuths," the new Paramount-Mack Sennett comedy which will be shown at the Best theatre tomorrow. They are Ben Turpin, the man with the squint which has made his fortune, Charles Lynn, a popular player and Marie Prevost, a pretty comedienne whose popularity is unbounded. The two men are detectives in "Sleuths" whose peculiar business methods gets them in serious trouble, while Marie Prevost is a stenographer who gets things right at the end.

At the Best Monday

Vital in treatment, filled with stirring situations of sustained suspense and human interest, with a powerful climax, "Tyrant Fear," the new Thomas H. Ince picture starring Dorothy Dalton, is said to be one of the strongest vehicles in which that popular and talented actress ever has appeared. The picture was produced under the personal supervision of Thomas H. Ince and it is said to be a production far above the average.

Miss Dalton portrays the role of a French-Canadian girl, who has lived in fear of her father from childhood. He sells her to a brutal trapper who in turn gambles her away to the keeper of a notorious dive in the gold settlements of the far north, where she meets a besotted pianist, who once had seen better days. She shoots the dive-keeper to save herself from his loathsome advances and her fear vanishes magically with the commission of this act, while she regains mastery over her soul.

She escapes to her husband's cabin with the pianist and in a snow drift they find the trapper's body. The pianist, who has learned to love the girl and who is now a man once again, takes her to his heart. The snow and dance hall scenes of "Tyrant Fear," which is to be presented at the Best theatre next Monday are said to be remarkable from the standpoint of skilled photography. Miss Dalton is supported excellently by picked cinema players.

China's Newspapers.

It Pays to Keep Cheerful.

The good physiological effects of cheerfulness and confidence are ascribed to the fact that emotional conditions, such as fear, worry, etc., excite internal bodily reactions and accelerate the secretion of harmful products, which inflame already pathological conditions of the vital organs.

Use Furs as Money.

The Loyalty Islands, which lie in the Pacific to the east of Australia, are famous for their fur money. The fur, which is taken from behind the ears of the so-called "flying fox," in reality a large fruit-eating bat, is woven into cords of various lengths, and these constitute the ordinary currency of the islanders.

FACES COMPLETE COLLAPSE

Pro-German Party in Turkey Losing Its Power.

Washington, Oct. 11.—The non-appearance of Turkish peace note, reported to have been sent simultaneously with that of Germany and Austria and the report from London and Paris of impending and far-reaching events in Constantinople has strengthened the view here that the situation of Turkey is desperate.

It is believed by officials in touch with Turkish affairs that the pro-German government faces utter collapse, if indeed that has not already taken place, and that the new government will make a direct appeal to the Allies for peace at any price.

LORD SHAUGHNESSY RESIGNS

Relinquishes Presidency of Canadian Pacific Railway.

Montreal, Oct. 11.—Lord Shaughnessy, president of the Canadian Pacific railway, resigned at a meeting of the road's directors, but will remain as chairman of the board.

He is succeeded by E. W. Beatty of Montreal, who has been a vice president.

Oppose Premature Peace.

Washington, Oct. 11.—Opposition to a premature peace was launched by the Italian laboring class at the Socialist rally in Rome in honor of Samuel Gompers and the American labor mission. Resolutions were adopted calling upon the leaders of the Allies that in any possible negotiations, such positive guarantees must be demanded and obtained as will assure the people's rights and liberty. The meeting also went on record in favor of renewed sacrifices rather than an incomplete victory at this time.

BRUGES, BELGIUM, IN REVOLT

Populace Rises Against Deportation Orders of Foe.

Amsterdam, Oct. 11.—A revolt has broken out in Bruges, Belgium, the populace having risen against the attempts of the Germans to deport the civilians, according to Las Nouvelles. German troops used their guns and killed or wounded numerous Belgians.

Automobile War Tax Cut.

Washington, Oct. 11.—The 10 per cent taxes fixed by the House on passenger automobiles and motorcycles were cut in half by the Senate finance committee, which made rapid progress in its revision of the war revenue bill. Consideration of the amusement and club dues section and half of the luxury tax schedule was completed. In reducing the tax on passenger automobiles and motorcycles to 5 per cent, the committee fixed the same impost on such vehicles as on automobile trucks and tractors.

GERMAN DEFEAT SEEMS DECISIVE

Once Formidable Enemy Armies Are in Full Flight Before Allied Troops.

UNABLE TO STEM TIDE

Americans, British and French Are in Close Pursuit of Beaten Germans—British Are 12 Miles East of Cambrai.

London, Oct. 11.—Le Cateau has been captured by the British, Field Marshal Haig announced in his report. The British have advanced rapidly along the whole battle front. They now hold the line of the Selle river from near St. Souplet, to Solesmes, which represents an advance of about 12 miles east of Cambrai.

London, Oct. 11.—The once formidable German armies on the Hindenburg line from north of Cambrai to St. Quentin are facing eastward, defeated and in full retreat.

Their backs are the targets for the British, French and American troops, who bitterly fought them, step by step, out of supposedly impregnable defenses and now are hurrying them across the open country toward the German border. Nowhere is the enemy attempting a stand in force.

True, the German border is yet a long distance away, but the last two days of chase have materially decreased the width of the area separating the invaders from their own Rhine line.

La Cateau, the important junction point 12 miles southeast of Cambrai represented last night the point of deepest penetration by the Allied troops. The British were the masters of it.

Many Towns Captured.

All along the front, however, the British, Americans and French have been steadily pressing forward their infantry forces, taking numerous towns and villages, while far in advance of them the hoof beats of the cavalry horses intermingled with the roars of the whippet tanks and the staccato barking of the machine guns inside the moving forts. So fast has been the retreat of the enemy that at various points the Allied forces afoot lost contact with him.

The retreat, which is over a front of about 35 miles, from the south of Douai to the region east of St. Quentin, has left in the hands of the Allies, in addition to the towns taken, valuable lines of communication and strategic positions of high importance, and driven in a wedge that seemingly will force the Germans everywhere from the North sea to the neighborhood of Verdun to fall back.

Southeast of Douai, one of the remaining strong points in the German line in the north, the British are standing in Estrum, 12 miles southwest of Valenciennes, the pivotal point in the enemy's known next defense line and 10 miles to the south the city is outflanked at Solesmes.

Allies Gain in Champagne.

Meantime the French and American armies on that part of the line running from northwest of Rheims to the Meuse river are still pressing forward in the converging movement with the armies in the West and gradually are forming the entire war theater into a huge sack. The Americans continue slowly to advance up the eastern side of the Meuse, while west of the river, in conjunction with the operations of the French, they have all but obliterated the great Argonne forest as an enemy defense position.

GETTING READY FOR DRIVE

Greeks Will Join Allies in Attack on Turkey.

Washington, Oct. 11.—An Allied drive on Turkey is expected soon unless the internal unrest there breaks into open revolt, according to diplomatic opinion here.

Greece is preparing to march on the Ottoman empire when the Allied commander-in-chief gives the word, it was stated. More than 300,000 Greek troops are in arms now and 200,000 more are awaiting equipment, it is stated.

STOPS PUBLIC GATHERINGS

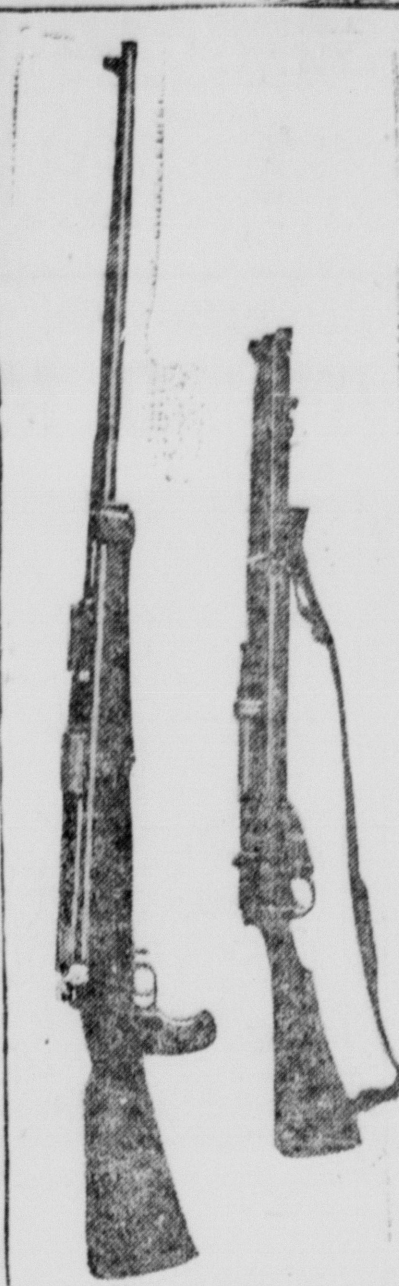

Utah Board of Health Acts to Check Influenza.

Salt Lake City, Utah, Oct. 11.—Churches, schools, theaters, moving picture houses and all public gathering places were indefinitely closed by order of the state board of health in an effort to check the spread of Spanish influenza, which made its appearance here recently. The order applies to every town in Utah where cases of the disease have been found.

Emmons Blaine, Jr., Dead.

Chicago, Oct. 11.—Emmons Blaine, Jr., son of the late Emmons Blaine and Anita McCormick Blaine, and a grandson of the late James G. Blaine died of pneumonia in Lansdowne, Pa. Mr. Blaine went into the service of the government in the American International Shipbuilding corporation at Hog Island early this year and was working there at the time of his death. He was graduated from Harvard in 1914 and in 1916 received the degree of mechanical engineer from the Institute of Technology.

Amsterdam, Oct. 11.—In thanking the German industrial association for its vow of confidence, Emperor William is quoted by the Cologne Gazette as saying:

"The hour is grave; we are fighting for the future of the fatherland and for the protection of the soil of the homeland. To that end we need the united action of the intellectual, moral and economic powers of Germany. On the co-operation of those powers our invincibility rests."

WISCONSIN BANK IS LOOTED

Resident of Turtle Lake Killed in Gunfight.

Turtle Lake, Wis., Oct. 11.—Cutting telephone and telegraph wires so the community was isolated, four bandits, believed to be those who obtained \$7,000 in a daylight holdup of the First National Bank of Hopkins, killed one man and engaged in a gunfight with residents after they blasted the safe of the Turtle Lake State Bank and took \$5,500 between 2 and 3 a. m. The robbers fled toward the Twin Cities in an automobile. One of them was believed to be wounded.

President Urges Fourth Liberty Loan Be Oversubscribed.

Washington, Oct. 11.—Oversubscription of the \$6,000,000,000 Liberty Loan was declared by President Wilson to be a matter of world importance at this critical time.

"The recent events have enhanced, not lessened, the importance of this loan, and I hope that my fellow-countrymen will let me say this to them very frankly. The best thing that could happen would be that the loan should not only be subscribed, but very greatly oversubscribed."

"We are in the midst of the greatest exercise of the power of this country that ever has been witnessed or forecast, and a single day of relaxation in that effort would be of tragical damage alike to ourselves and to the rest of the world."

"Nothing has happened which makes it safe or possible to do anything but push our effort to the utmost. The time is critical and the response must be complete."

Do Something Better Than the Other Fellow--- and ADVERTISE

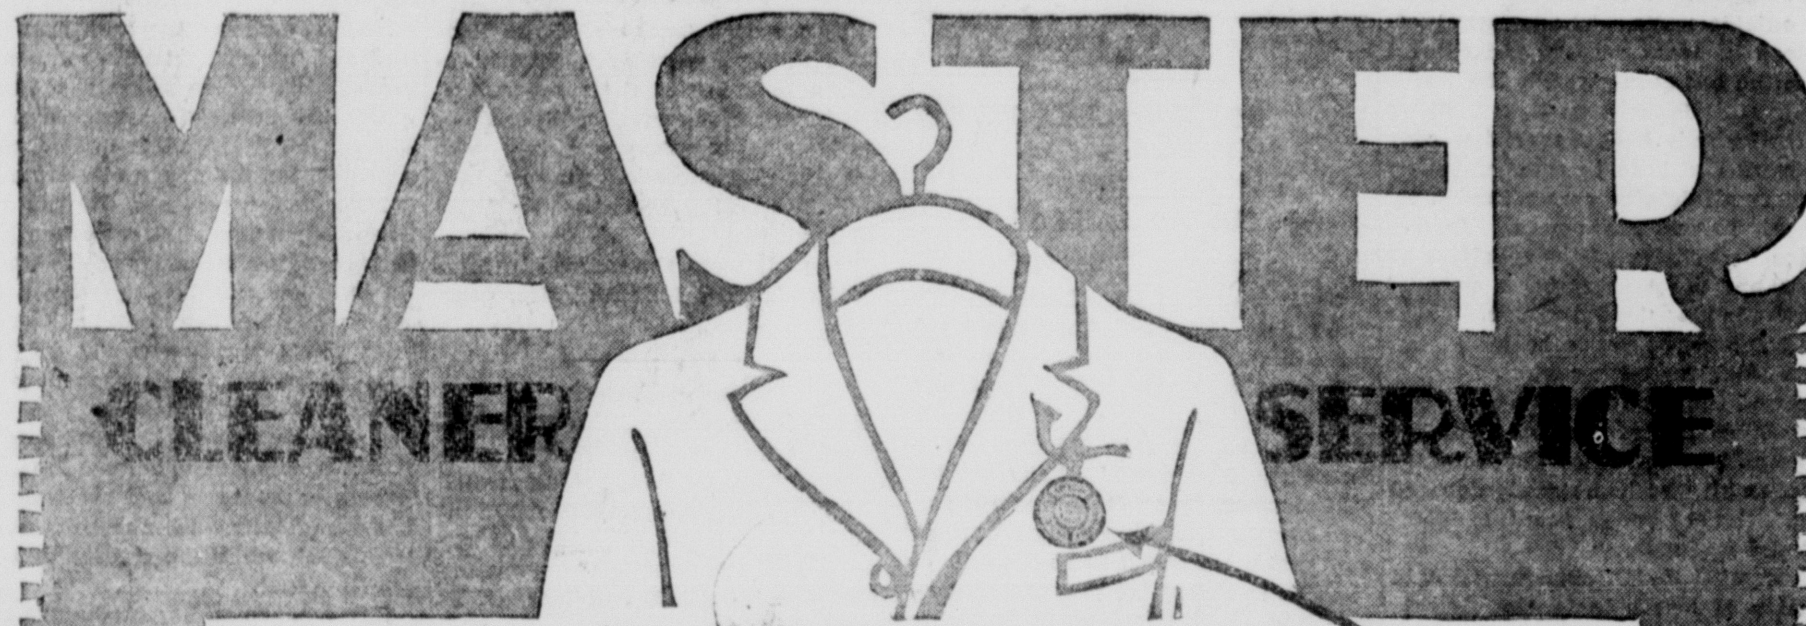

Advertising cannot accomplish the impossible any more than barren ground can yield rich crop.

But how advertising does make things hum when the product and proposition are right, the men and methods above board, when there's an honest purpose and earnest effort from bundle boy to general manager to serve efficiency, to deal honestly, to sell good goods, to price fairly.

Oil up the machinery of your business, imbue your organization with the spirit of true service, make your business worthy of the good will, the confidence, the patronage of the people.

In this fertile field then sow the seed of advertising and it will bring forth abundant crops in increased business and augmented prestige.

Your store news in the Dispatch will be read in practically every home in Brainerd and vicinity every evening.

The United States Government has commandeered the Country's supply of wool, and is now reclaiming every available piece of woolen in the army through the Master Cleaning Process.

BRAINERD MODEL LAUNDRY

OMER ERNST AT WESTERN FRONT

In Letter Home Writes of Impressions Gained in Fighting the Boches at Close Range

DESCRIBES DUG OUT HOMES

Hans Very Methodical in Artillery Fire First Four Shots to Get the Range

In a letter to relatives and friends, Second Lieutenant Omer F. Ernst, son of Mr. and Mrs. John Ernst of this city, writes of experiences on the west front:

August 5th, 1918.

Greetings:

If you could take a peep at me this very minute, 10:09 A. M., Aug. 5th, 1918, this is what you would see:

Someone is seated at a table busily writing. Beside him lays a picture and the wonders of it are being there so that it can be quickly used. On looking closer a cleaning rod can be seen beside it and one decides that it has been used and is just lying waiting for its cleaning. But we are more observing we would never have wondered for a moment if there was any danger near for the writer is not a soldier, but a mark around his neck nor his "Steel Stetson." And they are signs that cannot be mistaken. It is true that you can pick up most any magazine and see pictures of the boys in the trenches or going "over the top" in campaign hats and with never a sign of a gas mask and while I hate to spoil these pictures they should be labeled "Made in America." In the background one can see numerous little mounds of earth with here and there a pup tent. No, the camp is not in a grave yard for there are no crosses over the mounds and that head sticking up out of the ground seems very much alive. These little mounds are dugouts which the men call home. They are about three feet deep, six feet long and wide enough for one, two or three men to lie down. The top is covered with poles and then dirt leaving one end open for an entrance. This gives the men very good protection—from the weather at present, but that it not what they thought of when they built them for Mr. Hun was not particular in these days what he did with his shells and pieces of them flew most anywhere, so the men made their dugouts and were perfectly safe from anything except a direct hit and there were none of those.

One noon while seated at the table eating we heard a shell coming but it fell short so no one moved; a few

seconds after it burst we heard a peculiar rattling noise and a piece landed square on our table and broke one of our best china plates. It sure made us mad too for they are hard to get. In fact these were made in Germany and we were just using them for the duration of the war.

I have digressed from the picture but there is nothing much more in it except a few chairs of various sizes, colors, shapes and designs and the trees in the background which look much like trees at home. Wait, there is one more thing of interest. What is that pile of peculiar looking wicker baskets with the guns and equipment beside them? They are what the Hun uses to carry his shells in. For the light shells 77 millimeter (3 inch) there are three in each wicker basket. Each shell has its own place and they are fixed so that they may be strapped on a man's back and carried. The bigger shells have a basket with two handles on them to be carried by two men. The rifles and bayonets used to belong to some Hun but they left them so we could have a few souvenirs. They also left that pile of helmets for us, too. The black one of patent leather was an officer's helmet but it's somewhat the worse for wear. I would love to send you all one for a flower pot but it is impossible at present. You have probably heard what the Hun said, "France is fighting for its country, England for world power and the United States for souvenirs." I wonder if that is why they left so much ammunition and equipment behind when they left this country.

I must start where I left off in my last letter. I believe I had you with me up in the Champagne front stopping the Hun or maybe it was at our camp where the bombing planes disturbed us. We had a march of several kilometers to our train and of course it rained. We have not decided yet if it rains every time we move or if we move every time it rains or maybe both. Just as we had nearly all the veterans loaded a shell came sailing over and burst, with a big puff of smoke, high in the air and considerable distance away. In two minutes another came over and burst a little closer. A third and fourth came at two minute intervals each bursting in the air and each a little closer. During those six minutes we had finished loading and were anxiously waiting for the train to pull out. Those four shots had been sent over to Mr. Hun could see them burst and plot his curve on his map. From it he can shoot at any target on the map in that general direction and come awfully close to it for his trial shots tell him the effect of the wind and atmosphere on the shells. Mr. Hun, you sure are a methodical old boy. You shoot four shots two minutes apart to get your range. You take five minutes to figure it out and then you send over a certain number of shells at regular intervals. If the

WASTE PAPER CHECK

Receipts From August Shipment Here—Checks Will be Distributed This Week

A voucher for the car lot of waste paper shipped the latter part of August under the Chamber of Commerce community plan, arrived today and the shipment will be figured up from the weigh bills and checks issued this week, if possible.

The freight on this car lot is considerable larger than in former shipments, owing to the increase charged by the government.

It is possible that another car lot will be shipped early in November, if a car can be secured, but this is a matter of conjecture. All who care to take advantage of this plan are invited to do so. The public is urged to save all waste paper and to advise the Chamber the amount they expect to have by the latter part of October.

HOW TO TAKE RISE OUT OF INFLUENZA

It has been reported that eating half a yeast cake, the compressed kind, three times a day for a couple of days will so demoralize the Spanish influenza as to cause it to beat a retreat, is a remedy which at the least is inexpensive and is claimed by some to be just the medicine to take a rise out of the disease.

TO DARKEN HAIR APPLY SAGE TEA

Look Young! Bring Back Its Natural Color, Gloss and Attractiveness.

Common garden sage brewed into a heavy tea with sulphur added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Just a few applications will prove a revelation if your hair is fading, streaked or gray. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get a bottle of Wyeth's Sage and Sulphur Compound at any drug store all ready for use. This is the old-time recipe improved by the addition of other ingredients.

While wispy, gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared, and, after another application or two, your hair becomes beautifully dark, glossy, soft and luxuriant.

This preparation is a delightful toilet requisite and is not intended for the cure, mitigation or prevention of disease.

GERMAN CLEANED OUT OF STATE SCHOOLS

No foreign language schools in the state are now using other than the English language for instruction, so far as members of the Minnesota Public Safety Commission know.

State Superintendent of Education C. G. Schulz recently ruled against use of any other than the English language for instruction in schools and the safety commission is cooperating to see that the ruling is observed.

MEETINGS NEXT WEEK

Red Cross Directors, Chamber Committee of Five on Membership and Other Meetings

A number of special meetings are scheduled next week requiring the attendance of members of the organizations represented.

The Red Cross directors will meet Wednesday, October 16 at 7:30 P. M. to consider bills and the date of the annual meeting, which comes the latter part of the month. October 29th has been suggested by the chairman.

The special committee of five, to go over Chamber of Commerce lists and readjust the same, will be expected to report at a special meeting of the advisory board, to be called the latter part of the week for this express purpose. The importance of prompt action on the part of this committee of the Chamber and of the membership committee has been emphasized.

Pay day comes on the 15th, Tuesday, and for this reason, meetings have been set for the latter part of the week.

RALLY DAY SERVICES

To be Observed at the Presbyterian Church on Sunday Evening

Rally Day services will be observed at the Presbyterian church Sunday evening at 7:45 o'clock. The subject of the program is "For Christ and For Country," and consists of religious and patriotic music. A recognition service will be celebrated for those who are in the army from the Sunday school, also a special exercise, "Our Stainless Flag."

Further announcement of the program will be given in tomorrow's paper. In the morning at 10:30 Colonel Steven Marshall, provincial officer of the Salvation Army for the northwest, will give a short address this will be followed by the sacrament of the Lord's supper.

REHEARSING FOR "THE WHIRL O' TH' TOWN"

Dates Have Been Settled, Oct. 23 and 24, for Presentation by Knights of Columbus

LARGE CAST NEARLY COMPLETE

One of Finest Girl Chorus Ever Seen, Some 60 People in Cast and Chorus

The dates have been settled upon for the coming of the big Knights of Columbus musical show. Wednesday and Thursday, October 23 and 24, will see the Park opera house floating with gaiety, for "The Whirl o' th' Town" is said to be a play in which a person can make use of every expression of delight.

The rehearsals are now in progress and the cast nearly complete. One of the finest girl choruses ever seen in Brainerd will be in this production. Some 60 people will eventually be working under the Evans banner for the show, and there is enthusiasm and pep to burn.

Some of our most prominent citizens have parts and there are going to be some surprises in the way of songs and stunts. Songs, acrobatics, comedy and surprise doings at the old farm and in the "Whirl o' th' Town" and the country boys and girls and the city boys and girls are all Johnny on the spot when it comes to irrelevant merry making.

It's harvest time with a harvest moon for the K. C.'s with this fine production, and everyone appreciates that with James W. Evans, the author of the famous "America Awake" at the helm, it will be a show of wonders.

ROLL OF HONOR

Miss Emily Anderson, who graduated from Brainerd high school with the class of 1912, taught school at South Long Lake, Nokay Lake and Mahtawa. At Mahtawa she was principal. She left Friday noon for Camp Sevier, Greenville, South Carolina, to take a three years' course of nurses training. She is to report on duty Oct. 15.

George Coult, who has been at the Great Lakes naval training station for the past year or so, is sick with the influenza in a hospital at Detroit, Mich.

Postmaster Dr. Wm. Reid of Deerwood has been called to Indianapolis training school to see his son, Lawrence W., who is ill with pneumonia, following influenza. The young man enlisted in August.

Edward Young of Pelican, has received word that his brother, Grant Young, died at Hoquiam in Washington state, where he was in the aeroplane section getting out spruce wood for propellers. The remains are to be shipped to Brainerd.

Calls Former King Martyr.

Amsterdam, Oct. 9.—In his manifesto to the Bulgarian people announcing his accession to the throne, King Boris, according to a dispatch from Sofia, referred to the fact that his father, in renouncing the throne of Bulgaria, sacrificed himself to the supreme national interest. In taking the name of Boris III, the new king solemnly declared he would respect the constitution and work faithfully for the prosperity of the country where he was born.

OMER ERNST AT THE WESTERN FRONT

(Continued from page 5)

first shells are one minute and fourteen seconds apart the third one will be just that far from the second. I do not know what his rate of shooting was after he got the range for before he finished figuring we had pulled out and left him an empty yard to shell.

"Where do we go from here, boys? Where do we go from here?" was the popular song for the next day and night and at no time was there any answer until they told us to unload. It is a wonder we ever got to where we were going for even the engineer seemed to be lost. They took us north, they took us south, they took us east and they took us west. At last the engineer got mad and away he went to Paris. Of course we didn't go right through Paris but we made a circle three-quarters the way around it and then headed northeast. We detrained at a little town on the banks of the Marne right where the first great battle of the war was fought—the first battle of the Marne in 1914.

A day's rest here and we were off for the front in trucks. By this time we began to have an idea where we were headed for. We were unable to get any later papers but the old one told about the counter attack we had started and there were plenty of rumors afloat and for a change most of them were true. We were to go in and knock them loose in case they decided to hesitate any place.

Our trip on the trucks took us through the most devastated country I have ever seen. I thought I had been in villages before that had been shot up but it was nothing compared to these. In some of them there wasn't even a wall left standing, everything was one big mass of ruins with here and there a road that had been cleaned to allow troops and supplies to pass. The roads were crowded with two solid lines of teams, men and trucks. One line going to the front the other headed for the rear and to get out of line or to stop was a crime that would bring quick abuse upon the head of who ever caused it. (To be Continued)

COMMANDED TO HOLD LINE OR DIE

German Armies Attempting Most Desperate Resistance of War to Stop Allied Advance.

LACK HEAVY ARTILLERY

Massed French Mortars and High Velocity Guns—Every Available Man Being Rushed Into War's Bloody Maw.

Paris, Oct. 10.—The most desperate resistance of the war is being attempted by the German armies. They have been ordered to hold or die, to give the Allies the impression they have not yet been beaten, while Berlin proceeds with its peace plot.

Foe Massing Trench Mortars.

In default of sufficient field artillery the Germans are massing all available trench mortars, howitzers and high velocity guns at critical points, in their efforts to stop the slow, ceaseless Allied advances, while from Russia, the Ukraine and the East generally, every possible German soldier is being hurried into the war's bloody maw in the West. Hospitals throughout Germany have been raked of nearly fit convalescents.

Reports have been received here that a levy en masse would be attempted in the event President Wilson's reply to the armistice proposal was unfavorable as a last resort to prevent total collapse of the empire. It is also reported that Belgian civilians are being forced to work on line after line of defenses about Ostend, Zeebrugge and Bruges, indicating that Field Marshal von Hindenburg and General Ludendorff consider rear-guard fighting across Belgium inevitable if they hope to arrive at the Antwerp-Namur-Metz line.

Laon Salient Tightening.

The Laon salient is gradually tightening. The British and Americans are driving one prong of the pincers deeper beyond St. Quentin and Cambrai, while the French and Americans are doing the same between Rheims and Verdun.

Short of guns, ammunition, airplanes and reserves, Ludendorff is frenziedly shutting what he has from this point to that, fighting an ever increasing battle.

YANKS TO OVERRUN GERMANY

Julius Kahn Says Big Army Will Invade Next Year.

Chicago, Oct. 10.—Julius Kahn, ranking Republican member of the House military affairs committee, declared that by the end of this year America will have more airplanes on the battle front than all her Allies put together, and will have obtained absolute mastery of the air. His statement was made in a speech before the Association of Commerce.

"German peace talk will not be allowed to interfere with our military program," he said. "To the 3,000,000 men now under arms 2,000,000 more will have been added by March 31, and by July 1, 4,000,000 Americans will be fighting in Europe."

"Unless Germany surrenders, more than 3,000,000 American soldiers will have overrun German soil before September, 1919."

COMPEL ENEMY TO RETIRE

Paris, Oct. 10.—The Anglo-French American troops have forced the Germans to a general retreat north and south of St. Quentin. The First French army, pursuing the enemy rearwards, has advanced about five miles to the east of St. Quentin and taken 2,000 prisoners.

The American troops, fighting west of the Argonne forest, were west of Cornay on the Aire river, having effected a junction with the French troops from the south.

It has been ascertained that three out of four German divisions facing the Americans at the beginning of the Champagne offensive have been with drawn exhausted and replaced by fresh troops.

APPEALS TO GENERAL PUBLIC

Acting War Secretary Urges Spirited Buying of Bonds.

Washington, Oct. 10.—In urging the nation to put forth its maximum effort to the war, particularly in financing it, Benedict Crowell, acting secretary of war, said that this would be the worst possible time to slacken efforts to defeat the Central powers.

"The enemy is being driven back," said Mr. Crowell, "and this is the best time to increase our pressure. It would be the worst time to pause. This applies to the civilian as well as the military forces."

"I say this particularly in reference to Liberty Bond buying."

PLEASED WITH WILSON NOTE

Yankees Glad That No Armistice Is Granted.

With American Forces in France, Oct. 10.—President Wilson's note to the Germans on their peace proposal has reached the American army. It had been eagerly awaited. The general tone of the rank and file comment indicated relief over assurances that no armistice would be granted while enemy troops were on Allied soil.

SENDS NOTE TO HAIG

British Premier Congratulates Armies for Victories.

Lloyd George Praises Courage and Tenacity of American and British Forces.

London, Oct. 10.—The following message has been sent by Premier Lloyd George to Field Marshal Haig: "I have just heard from Marshal Foch of the brilliant victory won by the Third and Fourth armies, and wish to express to yourself, General Byng, General Rawlinson and all the officers and men under your command my sincerest congratulations on the great and significant victory which the British army, with their American brothers-in-arms, have gained during the last few days."

"The courage and tenacity with which the troops of the empire, after withstanding terrific enemy onslaughts in the spring of this year, again resumed the offensive with such decisive results is the greatest chapter of our military history. The smashing of the great defensive system erected by the enemy, claimed to be impregnable, is a feat of which all are justly proud and for which the empire will ever be grateful."

AS BASIS FOR NEGOTIATIONS

Austrian Premier Says American Terms Are Accepted.

Vienna, Oct. 10.—In opening the Austrian Chamber of Deputies Baron von Hussarek, the Austrian premier, announced officially that a peace note had been sent to President Wilson, and said:

"In a measure the note accepts the basis for negotiations indicated by an important personality in the adverse camp. It is evidence that the Central powers are disposed to adopt a course leading to a pacific end."

"A response not taking into account our disposition would show a will to destroy us and would meet from the Central powers inflexible resolution."

SATISFIES FRENCH PEOPLE

Tone of President Wilson's Reply to Germany Is Approved.

Paris, Oct. 10.—President Wilson's reply to the German peace note was published in the newspapers and was greeted with general satisfaction and expression of approval throughout Paris.

"The note could not have been improved upon; substitute Paris for Washington as the date line and the reply might have been dictated here," is an epitome of French opinion as indicated by the popular reception of the presidential document.

PEACE DISCUSSION HARMFUL

Sir Eric Geddes Says It Impairs Efforts to Win War.

Washington, Oct. 10.—Talk of peace at this time is apt to paralyze the energies of soldiers and impair the usefulness and productivity of munition workers, Sir Eric Geddes, first lord of the British admiralty, said in discussing the German attempt to obtain an armistice.

"We cannot win this war by talking peace," Sir Eric said. "To get us all talking of peace and the time when all arms will be grounded is just what Germany wants."

KING INVITES GOMPERS TO DINNER

Rome, Oct. 10.—King Victor Emmanuel, telegraphing from the front, invited the American labor mission, headed by Samuel Gompers, to take dinner with him.

GERMAN LOSSES ENORMOUS

Paris, Oct. 10.—The German position has been rendered considerably worse, in the opinion of the military commentators. Maj. De Civeau, in the Matin, points out that the strategic conditions alone do not suffice to indicate the importance of the battle, which aims more than ever at the destruction of the enemy. The German losses have been enormous and not only in prisoners. In a single section of the British front two fresh German divisions thrown into the furnace melted away in a few moments.

LOOK FOR EARLY REPLY FROM MAX

Officials at Washington Believe Wilson's Questions Will Be Answered.

GIVE SOUND REASONS

Tremendous Exigencies of Military Situation and Internal Conditions in Germany Will Force Rulers to Act Quick.

London, Oct. 10.—The Press Association has issued an authoritative statement that the foreign office has received the text of President Wilson's note to Germany and that all of the Allies are in complete accord in the matter.

It adds: "The fall of the Turkish cabinet has great significance. It is not doubted that Turkey apprized Berlin of her intention to seek peace and Germany sought to stave off such a development in an attempt to seek a general instead of a partial settlement."

Tewfik Pasha, who, it is reported, will be the new Grand Vizier, is understood to have pro-Ally, rather than pro-German sympathies. It was rumored that a Turkish peace note was dispatched through the Spanish government.

Washington, Oct. 11.—American officials are expecting an early response to President Wilson's note of inquiry to the German chancellor.

While realizing that an answer to the three pertinent questions put to the Prince of Baden will be very difficult if the original proposal of the German government were not sincere, officials are confident that internal conditions in Germany and the tremendous exigencies of the military situation will force speedy action by the chancellor if he hopes to prolong the existence of his cabinet beyond a few days.

So far as the hold of the government upon the people is concerned, conditions in Austria are even far worse than those in Germany. This fact is calculated to strongly affect the German government, which is understood to entertain grave doubts of the strength of purpose of the dual monarchy and to fear that Austria, or perhaps Hungary, acting independently, will follow Bulgaria in seeking an unconditional peace. This would leave Germany to wage the war alone, for it is a forgone conclusion that Turkey already is lost to the Central alliance.

AMERICAN STAND PLAIN

The pointed inquiry directed to Prince Max as to whether he is speaking merely for the constituted authorities of the government who have so far conducted the war, will, it is believed, be very embarrassing. If the response is in the affirmative, Germany's proposal will be rejected as the President has already given notice that he will have no dealings with such authorities.

The powerful Socialist elements in the Reichstag also are counted upon to resent any such statement by the chancellor as directly in conflict with the Reichstag resolution of July, 1917, and with the very recent pledges to make the cabinet a representative body, under which the Socialists were entitled to take part in the government.

FAVORS WINNING WAR FIRST

Colonel Roosevelt Opposes Peace Talk at Present Time.

Oyster Bay, N. Y., Oct. 10.—Col. Theodore Roosevelt made the following statement on President Wilson's response to the German peace proposal:

"Four days ago and again and again prior to that time I said that this war ought to be fought through until we secured and unconditional surrender of Germany and her vassal allies—Austria and Turkey. To this statement I unqualifiedly adhere. I fear that President Wilson's latest announcement will be treated as an invitation to further note writing. Personally, I believe that our sole aim should be to win the war and not to discuss peace terms with the enemy until the war has been won."

TURKEY FEELING PRESSURE

Surrender Would Not Surprise British Authorities.

London, Oct. 10.—The surrender of Turkey within the next 48 hours will not surprise well-informed quarters in London, the Evening Standard says. The British authorities, it adds, are in possession of information showing that a process of disintegration exists in Constantinople.

MUST KEEP APARTMENTS WARM

Washington, Oct. 10.—The health of the nation should not be jeopardized by profiteering landlords. This is the stand taken by the Fuel administration in regard to owners of apartment houses, who are failing to furnish heat for tenants. "The Fuel administration never has set any date for the opening of 'heating season,'" said officials. This was in reiteration of a statement denying assertions by landlords that the Fuel administration had forbidden the firing up of furnaces until Nov. 1.

DON'T DRINK SHIPS!

Are you shocked to see the lady drinking ships? You drink ships every time you use sugar unnecessarily, in a beverage.

Seventy-five per cent. of the sugar used in this country has to be brought here in ships. Every possible ship is needed for the transportation of troops and supplies to the other side.

Eliminate sugar as a luxury, and you release many ships for war purposes.

Teach your appetite to remember this—**DON'T DRINK SHIPS.**
